

As a long time listener to K-LOVE I value the service it provides its listeners, the christian music, valueable news info. (that at times informs the public of issues not covered by other radio or TV stations, and the clean comments and info. provided. By mixing K-LOVE's programs with other programming it would lose its format and wholesome values, it would not be a good move. K-LOVE is a 24hr radio station that is there to provide a listening ear to individuals that may need a word of encouragement, a positive influence and valuable resources to a hurting generation of teens, divorced parents, confused individuals about life issues. We need the kind of programming that K-LOVE provides.

\*\*\*It may just be what your teen son or daughter, grandson or granddaughter, wife, husband or a friend you care about may have need of. \*\*\*\*\*Eachone of the individuals making decisions about this issue may just need to listen to K-LOVE in the privacy of their vehicle and just see how this station is much needed in this country. We need to have good clean music and info. in the air waves. Thank you for your valueable time, and may you be honest to yourself when making important decisions such as this one.
